CSI 201 — Computer Science I

Handout #01

1. Course Web Page: http://ramsey.washcoll.edu/class/06SPRING/201.html
2. Identifiers (p7)

    (a) valid
    (b) invalid: reserved words and keywords (p8)

3. Variable types: int, float, double, char, bool, string (p8)

    (a) Declaration (p8)
    (b) Initialization (p11)
    (c) Assignment (p11)
    (d) Initialization + Assignment

4. memory bubble/locations for variables
5. **Good Programming Practice:** Use meaningful names (p13)
6. **Pitfalls:** Uninitialized variables (p12)
7. Compilation

    (a) source
    (b) executable
