

Presentation Dates for Exam #3:

Outlines: Friday, April 28

Presentations: Monday, May 1st

Exam: Wednesday, May 3rd

Written Due: Friday, May 5th

Each oral presentation is a solo performance. Part of your oral presentation is a 7 minute review of a previously covered topic. Try to tie in new pieces into your topic. Your presentation should be accompanied by a handout which gives a general outline of the topics covered.

The written assignment should describe why your topic is useful and important in computer science and/or data structures. Support your opinions with facts and examples. I expect the paper to be no more than 2 pages.

Each presentation will be graded on a scale with a maximum of 50 points awarded according to the following chart:

ORAL

Accuracy	0	2	4	6	8	10
Clarity	0	1	2	3	4	5
Use of words, terms	0	1	2	3	4	5
Creativity, difficulty	0	1	2	3	4	5

WRITTEN

Accuracy	0	2	4	6	8	10
Clarity	0	1	2	3	4	5
Use of words, terms	0	1	2	3	4	5
Creativity, difficulty	0	1	2	3	4	5
